

## **Disease Areas " >**

At Sandoz, we discover new ways to improve and extend people's lives. We pioneer novel approaches to help people around the world access high-quality medicine. Every year, our products reach approximately 500 million patients.

In addition to top global rankings in biosimilars<sup>1</sup> and generic antibiotics<sup>2</sup>, Sandoz holds strong global positions in areas ranging from generic cardiovascular, central nervous system (CNS), pain and ophthalmology to oncology and respiratory.

Our broad portfolio is backed by a range of state-of-the-art technologies, formulations and devices, including prolonged-release and multiple-unit tablets, creams and gels, orodispersible films, transdermal patches, lyophilized products, implants and inhalers.

### **Anti-Infectives**

The Sandoz Anti-Infectives & API business is a fully-integrated provider of affordable, high-quality pharmaceutical intermediates, active pharmaceutical ingredients (APIs) and finished dosage forms.

### **Respiratory**

Sandoz is well positioned for leadership in the fast-growing respiratory market given our strong portfolio and capabilities.

1. In the combined regions of North America, Europe, Japan and Australia
2. #1 in generics market by volume
